

# WHITE LUBE

## WHITE GREASE SPRAY WITH LITHIUM

### Characteristics

Base:	Mixture of greases and lubricants with lithium zinc and titanium
Propellant:	Denatured and odourless hydrocarbon
Appearance:	White grease
Temperature Resistance:	Until 250°C
Drop point:	170 °C
Workable Temperature:	-20°C to 120°C
Penetration:	260/290
Water Resistance:	Water repellent
CFC free	

### Properties:

- It is a lubricant for many applications
- It contains lithium (antioxidant)
- It resists under high pressure and it has a high viscosity

### Description

WHITE LUBE is a universal grease spray for different uses: particularly indicated to lubricate and protect the mechanical parts of ships, boats, materials for fishing, underwater weapons, rifles, embroidery and sewing machines, laser machines.

Thanks to its lithium composition, it has a very good resistance to water and to the oxidation caused both by salty water and atmospheric agents.

Indicated as lubricant for doors hinges, rails of curtains, drawers, leather membranes, bearings, mechanical movements in general, bar driver, engine parts, rotary systems and scale on which the laser machineries move. It resists under high pressure and it has a high viscosity.

It does not leave any carbon residue.

### Instructions of use

Clean the surfaces to be treated. Spray it to 15 cm distance from the part to lubricate.

The little tube permits to treat the less accessible parts.

### Packaging

Spray Aerosol ml 400

Box 12 Aerosol

Product Code 14410/04
